## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on Feb 20, 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 86-88, 90-93 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 86, line 9, before “enhancing” insert --said--.

Claim 86, line 9, “a conformable thermally conducting material” is it the same as the at least one object of claim 86, line 5?

Claims 87, 88, 90-93 are included because of their dependencies.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 2831

2. Claims 86-88, 90-93 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakagawa.

Nakagawa discloses an electromagnetic shielding housing comprising first and second heat-conducting partial shells (3, 5) made of metal (col 4, lines 2-5) having first and second faces, at least one object or a conformable thermally conducting material (1) made of thermal conductivity such as metal (col 3, line 1-9) attaching one of the partial shells to provide a void-free contact between the first and second faces (col 2, line 15-17)(Fig 1), forming a housing (Fig 1)(re claim 86

Re claims 87, 88, securing the first and second partial shells together or the first and second shells pivot about a common axis (7).

Re claim 90-93 disposing a conformable weatherproof, weather-sealing material (col 2, lines 15-18), an electromagnetic interference seal (col 2, line 25) between the faces.

### ***Response to Arguments***

Applicant's arguments filed 02-20-03 have been fully considered but they are not persuasive.

Applicant argues (1) that Nakagawa does not teach or suggest forming first and second heat-conductive partial shells, attaching at least one object to either the first to second partial-shell for thermal contact there between, or disposing a conformable thermally conductive material between the first and second heat conducting partial shells to provide void-free contact

Art Unit: 2831

between the first and second faces, (2) that applicant does not find any reference to the heat transfer properties of the housing in Nakagawa nor forming heat conducting partial shells as found in claim 86. The examiner disagrees. With respect to (1) it has been addressed in previous paragraphs. With respect to (2) metal housing of Nakagawa is made of thermally conductive material such as metal (col 4, lines 2-5)

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
